Head's Letter

Hello everyone.

I hope that you have all had a good week.

Thank you to all who attended the Reading workshop on Tuesday evening. We were thrilled with how well it was attended and hope that you found it very useful in understanding how we teach reading here at Pyrford. A huge thanks in particular go to Mrs Goree and Mrs Murray for the hard work that they put into planning and delivering the evening. And thank you to all the staff that delivered workshops or came to the event. The slides are available on the website (see below).

I hope that you are all enjoying our new social media news. Miss Daly has been very proactive in ensuring that our pages are being kept up to date. We are now live on Facebook, Twitter and Instagram. Please make sure that you follow us to see what is happening during the school day.

The PTA Annual General Meeting is next Tuesday at 7.30pm in the hall. Everyone is welcome and we would love you to come along and I look forward to seeing you there.

Have a lovely weekend and keep safe.

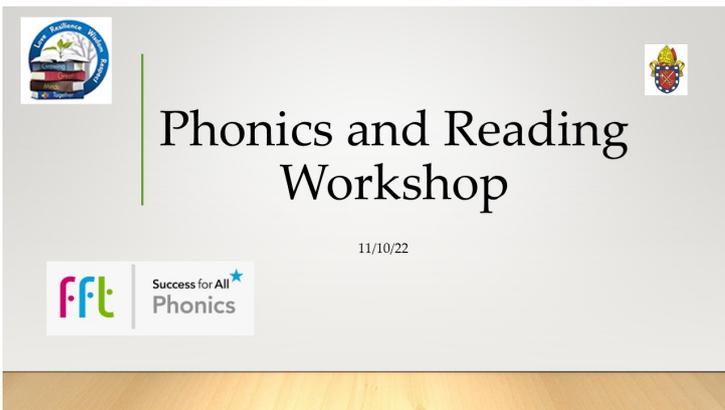

Rachel Clement

Head of School

Thank you to all the parents who were able to attend the presentation on Tuesday evening.

All the presentations are now on the school website on the Phonics & Reading page in the English Area under Information/Curriculum [Pyrford C of E Primary School - Phonics & Reading](#)

There is a very useful information and a video about the Success for All Phonics programme on this website [Success For All Phonics - FFT](#) and the parent portal with resources to support your child's phonics and early reading is [Parent Portal \(fft.org.uk\)](#)

This week's book winners

We have relaunched our social media accounts and are live on Facebook, Twitter and Instagram! Do like and follow!

BLACK HISTORY MONTH

Year 5 created fact files all about black sporting stars. They had great fun learning about significant athletes from the 20th & 21st centuries.

In Year 2 we discussed famous black people. We spoke about how black people have been treated in the past. We talked about equality and racism. The children discussed their thoughts.

“Katherine Johnson did all the Maths for Neil Armstrong.” *Sophie*

“Some black people weren’t treated fairly.” *Naomi*

“You have to treat other people how you want to be treated.” *Juliette*

“We can celebrate people that are black and special.” *Austin*

“I think Nelson Mandela was a brave man.”

“He stood up to the bullies.”

PLEASE COULD ALL BREAKFAST CLUB AND TREETOPS ACCOUNTS BE SETTLED

Four of our marvellous mathematicians in Year 6 attended an AIM High Maths Day at Westfield Primary School on Wednesday. The children thoroughly enjoyed being challenged and collaborating as a team to problem solve. Well done Year 6!

We would like to say a big thank you to Josh Edgley and his company Athletic Edge for donating our netball balls and bibs.

Good luck to our Year 6 boys team taking part in the Danone Football Tournament this morning.

GOLDEN BOOK

CONGRATULATIONS TO OUR GOLDEN BOOK WINNERS THIS WEEK

| | |
|----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|---------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| <p>N SQUIRRELS Livai Bahin. We have been learning about our bodies and our senses. We listened to different sounds and guessed what was making the noises. The children made their own shakers. Livai carefully scooped some rice and pasta into his bottle. He really enjoyed shaking the bottle and listening to the sound it made.</p> | <p>3 JUNIPER Alana Foote. At the end of our History topic we learnt about some of the ways in which the Romans have influenced our lives today. Alana produced a fantastic poster explaining some of the important things that Romans did for us. Wonderful work Alana!</p> |
| <p>R BEECH Shanzay Zafar for trying her best in everything she does. She has impeccable manners and is always kind and helpful to her friends and the teachers. Shanzay always listens carefully, waits her turn to talk and is a joy to teach!</p> | <p>3 MAPLE Uzair Zaman. Our new topic is all about light and shadows. The first challenge was to write questions and then find answers. Uzair worked well and found out lots of interesting facts about the sun.</p> |
| <p>R HAZEL Molly Clough. We have been reading <i>Handa's Surprise</i> in Reception this week. Molly worked very hard on her story map and kept going until it was all done! She thought carefully about each part of the story and wanted to do all the writing herself. Well done Molly!</p> | <p>4 ALDER Joseph Hughes for producing an excellent and interesting leaflet about Sutton Hoo. He put in so much effort which really paid off as he (and we) were very proud of the finished leaflet. Keep up the great work Joseph!</p> |
| <p>1 OAK Sylvia Webb. We have been thinking about why God is King. Sylvia made God a wonderful crown. She carefully drew pictures of the things God rules over. Well done Sylvia!</p> | <p>4 LARCH William Skeat for producing a fantastic leaflet about Sutton Hoo. He included lots of interesting facts about the Anglo-Saxon burial ship. Well done William for writing in paragraphs and for using subheadings.</p> |
| <p>1 PINE Elliott Lawes for working very hard on his writing. This week he wrote a description of the 'dark and scary wood' without any prompting. He displayed an excellent 'have a go' attitude and Miss Adams was incredibly proud. Keep it up Elliott!</p> | <p>5 ROWAN Eliana Hutchinson for her excellent poem that she performed describing our story and the landscape of our book <i>Ice Palace</i> by Roberts Swindells. She used wonderful figurative language and created a vivid image in her audience's head of Ivan's Land. I especially liked how she managed to make it rhyme too. Well done Eliana!</p> |
| <p>2 CEDAR Samuel Hughes. In Geography we have been learning about the 7 continents. After learning how to find Africa on a map and finding out some interesting facts, Year 2 made their own silhouette pictures. Samuel had fantastic technique with the watercolour paints, blending them to look like a sunrise.</p> | <p>5 WILLOW Sophie Richardson. For National Poetry Day, we focussed on describing the environment. In Year 5 we have been thinking carefully about wintery scenes and what we would be able to see, hear, taste, touch and smell. Sophie performed her excellent poem describing Ivan's Land. I love the rhyming throughout her poem and think that Sophie has used personification very well to add even more detail. Well done Sophie!</p> |
| <p>2 HAWTHORN Kira Howell. In English we have been reading <i>Moth</i> by Isobel Thomas. We used a text map to talk like an expert and create a non-chronological report about a make-believe Nova Moth. Kira used the text map to re-write the report using fantastic vocabulary. Well done Kira!</p> | <p>6 HOLLY Ellen Grimshaw for an amazing piece of work on plant adaptation in our Science lesson. Ellen has produced a very thorough explanation of how different plants adapt to their habitats; her illustrated diagrams are beautifully drawn and labelled and she has shown great care in her work. Fabulous work Ellen - well done!</p> |
| <p>3 ELM Martin Bahin for writing an amazing re-tell of part of our story <i>Gorilla</i>. He always presents his work so neatly and I am so impressed at how hard he is working and how well he is now writing. He has remembered the story well and included some interesting detail in his sentences - no mean feat when he is writing in his second language. Great work Martin!</p> | <p>6 LAUREL Alex Borovskyi for his fantastic work in Science on plant adaptation. He has written a detailed explanation of how cacti have adapted to survive in their environment. Alex has been working so hard this term and has settled in really well. Keep up the great work Alex!</p> |

 WALT Write a recount in present
 Dear DIARY last night, AN
 extra ordinary thing happened. A gorilla had
 gave me a little gorilla I
 threw the skills in the forest
 and to see to sleep. SAHAI
 REZEN STAY the gorilla grow in grow
 and he grow very dead he small to
 him hana very gorilla to death
 steps. and the gorilla gentle
 took hana and his tiny tetras
 go to the top and he see lots off
 gorillas I fell good then
 we went to be cinema to see
 a paper gorilla then he went to the
 cafe hana took he was rem and
 fruits when he went to home
 and den on autism.

The Sutton Hoo ship

The ship was 15M long. It looked like a dark skin a ship not seem to have as fast as 15 ball people. The ship was covered from the floor.

My sister's missing body

Perhaps the dead person was buried in a large wooden coffin called a sarcophagus. When archaeologists discovered the ship they found the Sutton Hoo they didn't find a skeleton.

The Sutton Hoo helmets

When some one talked when wearing the helmets their voice would be amplified. The helmet was placed on the top of the Sarcophagus at the ends.

Sutton Hoo helmets at Sutton Hoo

really most of the treasure in metal is gone rather. What busy an that ship.

reason some believe that after they used they buried in a different place.

The My Sorrow's mounds

There were 17 different mounds of dirt they were called mounds they were all different sizes.

who was buried here

the weapons and armor in the ship burial at Sutton Hoo shows that the dead person was a man. This man owned this big ship.

open open and flip for more information.

Thursday 29th September

What the Romans did for us.

When the Romans came to Britain they lots of things that we still use.

The Romans were very clean they built lots of big community bath houses.

They brought Roman numerals which we still sometimes use today including clocks and coins.

The Romans also invented crutches but they didn't believe in anything like that when they first came.

The Romans also made this amazing system which carry's water from the mountains into the city's.

They made lots of straight roads for all the soldiers to march on.

They made lots of towns such as London, bath and Chester.

Alana Foote

The Sutton Hoo ship

The ship was 15M long. It looked like a dragon. It does not seem to have a sail or mast. It was as tall as 15 tall people. The ship was discovered from the river.

The Sutton Hoo helmet

When someone talked when wearing the helmet their voice would be amplified. The helmet was placed on the top of the sarcophagus at the ends.

The Mycenaean houses

There were 12 different rounds of dirt they were called mounds. They were all different sizes.

Who was buried here?

the weapons and armor in the ship burial at Sutton Hoo shows that the dead person was a man. This man owned this big ship.

Other open and flip for more information.

Wednesday 5th October 2022

PLANT ADAPTATION

Polar Plants

Poppies

These peculiar type of poppies follow the sun they attract heat in order to adapt and if they don't they die.

Reeds

Algae grows inside reeds to stay out of the water. The algae grows 1 cm per year. 50 years!

What is adaptation?

Adaptation is where animals change how they look to help them survive to live in better way and without adaptation many species would not be on the Earth today. Here's an example:

Water Lily

The water lily can be found in ponds, lakes and rainforest well pretty much anything that contains water and sunlight. Surprisingly, they have a tough waxy layer on the leaf of the flower.

Large air space to make its leaves float.

Leaves face the surface.

Provide shelter.

Long stem.

Roots anchor in mud.

Has seeds that can float.

Camouflage

They are not suited to their environment so they will not create offspring allow species to thrive.

Over years the peppered moth adapted to blend in with the tree.

HELP CLEAR THE AIR

Protect children

Save money

Help the environment
